

Mark: Connection of push-fit kits shown as Chart 3.3

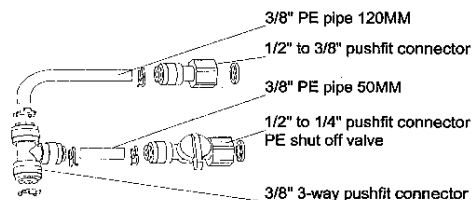

Chart 3.3 Push-fit kit connection

② Shown as chart 3.4, connect the 1/2" to 1/4" Push-fit into the water inlet, joint the filter with 1/4" on both sides-one to the water inlet, the other to the water supply, and have the filter fixed into the mounting clip (Mark: filter is optional part for hard water only)

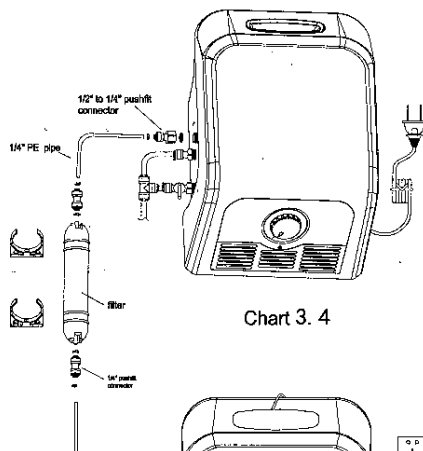

Chart 3.4

③ Shown as Chart 3.5, the pipe connect to the water supply must use 1/2" to 1/4" Push-fit connector with PE shut off valve on it; outlet connected by 1/2" to 1/4" Push-fit connector.

(Mark: when use the push-fit kits, remove the plastic semi-ring first and push the pipe till cannot push forward anymore, then plug it back)

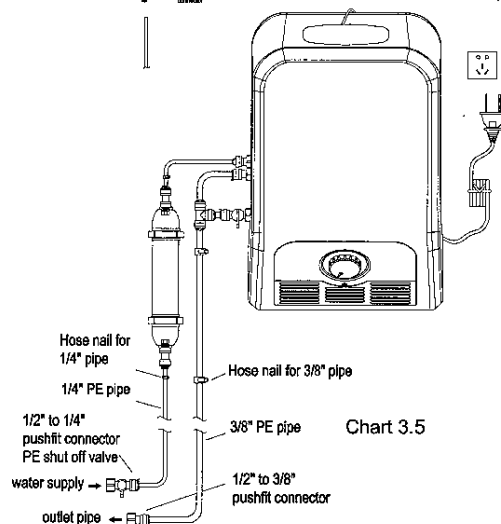

Chart 3.5

## 4 Application Way

### 4.1 Single Use

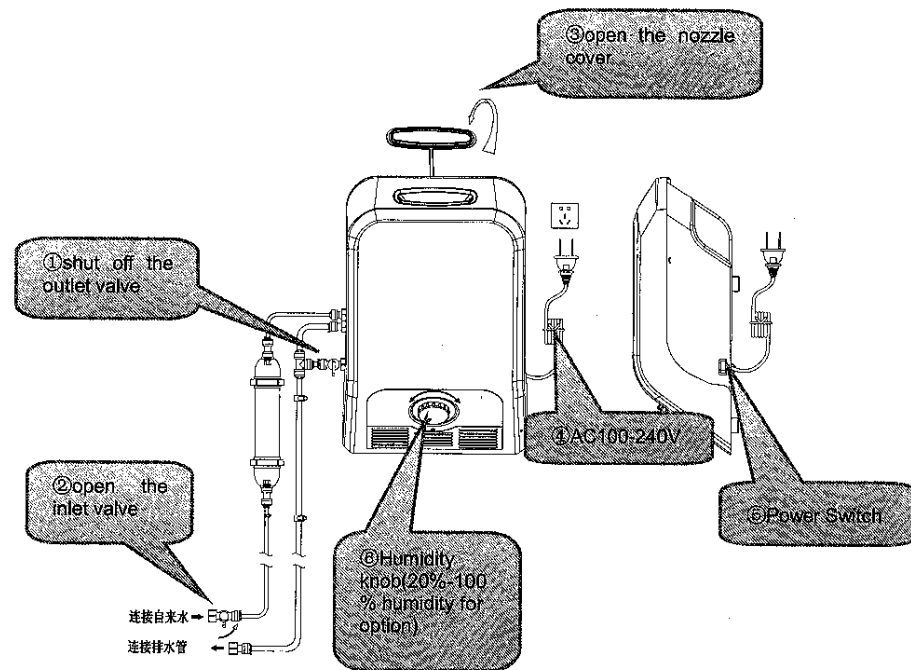

Chart 4.1 Single Use

Mark:

1. The humidifier will work in 10 seconds after refill water.
2. For short time nonuse of the humidifier, shut off the power switch; for long time nonuse, cutoff the power, shut off water inlet valve, open the water outlet valve, cover the nozzle cover.
